

# Meet Our Preceptors

PGY1 residents take on the role of clinical pharmacists and provide care to patients in a variety of patient care settings under the guidance of skilled preceptors. A major strength of the program is the support of our physician staff with many years of experience in various clinical specialties. Residents grow exponentially in their clinical skills, gain experience in teaching pharmacy students, and participate in medication use policy and evaluation.

## Meet Our Pharmacist Preceptors

**Hayley Carey, PharmD, BCPS**
